ROYAL GARDENS, KEW.

BULLETIN

OF

MISCELLANEOUS INFORMATION.

APPENDIX III.—1890.

INDEX TO KEW REPORTS, 1862—82.

As many correspondents and botanical establishments in India and the Colonies appear to have preserved copies of the Reports on the Progress and Condition of the Royal Gardens, Kew, from 1862 onwards, for the sake of the useful notes contained in them respecting economic and other plants, it has been felt desirable to prepare an index to such notes in order that they may be rendered easy of reference.

At present notes too detailed for the Annual Report on economic products and plants, to which the attention of the staff of the Royal Gardens has been drawn in the course of ordinary correspondence, or which have been made the subject of particular study at Kew, are published in the *Kew Bulletin*. This *Bulletin*, of which three volumes
